

WCB5

Keep your devices powered up anytime, anywhere with this Portable Power Bank, designed for effortless wireless charging. Featuring a robust 5,000 or 10,000mAh lithium-ion battery, it stores ample power, allowing for incremental recharges that can last up to seven days. In addition to its Qi wireless compatibility, it includes both USB-A and Type-C ports, ensuring you can charge multiple devices simultaneously—whether wirelessly on top or through a wired connection. Stay connected without missing a beat!

- **3 devices at once.** 1 x USB A, 1 x USB C & Qi wireless capability
- **8,000 or 10,00mAh battery.** Up to 100% charge for mobile phones; up to 50% recharge for iPad/tablets via USB port
- **Incremental recharge.** ON/OFF button to last for up to 7 days of stored power
- **Matte finish.** Easily to carry in a bag
- **Power indicator.** Shows how much battery left in the power bank
